

Propane Certified Employee Training Program (CETP)

Books 1, 4.1, 4.2, 4.3, 4.4 — AGC Building — 1 Graves Street — Montpelier, VT
Fall 2021 — Book 1 starts September 21 - 8:00am – 4:00pm

Book 1 — Basic Principles & Practices of Propane

Book 4.1 — Designing and Installing Exterior Vapor Distribution Systems

Book 4.2 — Placing Vapor Distribution Systems and Appliances into Operation

Book 4.3 — Installing Appliances and Interior Vapor Distribution Systems

Book 4.4 — Basic Electricity for Propane Appliance Service

Book 4.5 — Basic Propane Appliance Service & Troubleshooting

This program is taught by an NPGA-approved instructor, using NPGA curriculum

More information about CETP can be found at www.npga.org.

What CETP Books are required to install, inspect and service propane equipment in Vermont?

In order to earn a Vermont Propane Certificate of Fitness, the 2015 Vermont Fire and Building Safety Code requires anyone that installs, inspects or services LP gas appliances to successfully complete Books 1, 4.1, 4.2, 4.3, and 4.4.

For LIMITED interior certification (installation, inspection, and service of interior or rooftop LP gas equipment) by HVAC Technicians, the Fire and Building Safety Code requires successful completion of CETP Books 1, 4.2, 4.3, 4.4, and 4.5.

For installation inspection and service of both natural gas and LP gas systems and equipment, the Fire and Building Safety Code requires successful completion of the AGA Fundamentals Course and CETP Books 1, 4.1 and 4.2.

Each class is limited to 20 students. Pre-registration is required. Late registrants may incur additional fees for express shipment of Books and Exams from NPGA and ITS.

Students must bring the current version of NFPA 54 (2015) and NFPA 58 (2014). ***Students who come to the class without the correct version will not be able to take the course.*** If the VFDA instructor has available copies of the NFPA codes required to take the CETP Module, any student showing for a CETP course without the correct version of NFPA 54 or NFPA 58 will be given a copy from VFDA stock and billed \$70 per book. VFDA does not loan NFPA Code Books to students.

The Skill Assessment Forms must be signed and sent to Industrial Training Services (ITS). If the Skills Assessment Forms are not sent to ITS within one year of test completion, the student will not receive a certificate and will have to take the class again.

All Skills Evaluators must complete the Skills Evaluator Training program and receive a registration number to be included on all Affidavits sent to ITS. The fee for the training course and registration is \$75 and will cover the three (3) year period for which the evaluator's registration number will be valid. Go to vermontfuel.com/lpskills to learn more about the NPGA CETP Training and Evaluation.

If you need to retest for a book, there is a \$100 fee per test. This does not include the instructor's time and travel fees if the test is administered separate from the VFDA CETP Series. If you would like more information about these fees, please contact Stephanie at 802-223-7750 or email steph@vermontfuel.com.

All cancellations must be made in writing to VFDA on or before the Registration Deadline. Firms registering students and failing to attend without written notice to VFDA will be liable for the full tuition. Cancellation by registrant after the registration deadline, leaves the registrant liable for 50% of the tuition. VFDA reserves the right to cancel any and all seminars for lack of student registrations. Pre-registered students will be notified of cancellation using the contact information provided on the completed registration form. Firms that prepaid for cancelled seminars will receive a full refund.

Questions? – Contact VFDA at 802-223-7750 or email steph@vermontfuel.com

Propane Certified Employee Training Program (CETP)

Books 1, 4.1, 4.2, 4.3, 4.4 – AGC Building – 1 Graves Street – Montpelier, VT

Fall 2021 – Book 1 starts September 21 - 8:00am – 4:00pm
